

Personal Information

Name: Amirhossein
Surname: Mohammadi
Gender: Male
Born: Nov 20 2003
Mobile: [+989014784362](tel:+989014784362)
Email: amirhosseinmohammadi1380@yahoo.com
Webpage: amirhossein.info

Fields of activity

• Mobile development in iOS and Android platforms	• Web development in both server and client sides
• Front-End development with ReactJs library	• Back-End development with Laravel framework
• Using Firebase Services as Back-End React	• Using Firebase Services as Back-End Flutter
• Launch web projects in bed of Docker	• Launch web projects in bed of Apache and LiteSpeed
• Launch and create WordPress websites	• Design and use APIs
• Launching Linux and Microsoft services	• Having knowledge of Git control version and Github

Top Skills

• Firebase	• React	• Laravel	• Flutter
------------	---------	-----------	-----------

Other Skills

• Flask	• Github	• Gitlab	• Git
• Php	• Python	• JavaScript	• Dart
• Bash	• Manjaro	• Ubuntu	• Linux distros
• Sass	• jQuery	• Font Awesome	• Google Fonts
• Material Design	• Bootstrap	• Responsive	• Blade templates
• MariaDB	• PostgreSQL	• SQLite	• SQLite
• Heroku	• Github Pages	• Netlify	• Fandogh Pass

Favorite researching fields

• Cloud computing	• Fog computing
• Virtualizing	• IoT

Experiences

Narben Information Technologists, Iran - Tehran

Nov 2021 - PRESENT

- Software developer

Narben, Iran - Tehran

Apr 2019 - Nov 2021

- Web Front-End developer
- Web Back-End developer
- Web application support
- Web application troubleshooter and tester

Passed courses

Developing Front-End with ReactJs 2021

I use React to develop applications with Firebase as Back-End, using Axios library to work with REST APIs. When I create a mobile app with Flutter and Firebase, I won't use Laravel or any Back-End frameworks. Because React can integrate with Firebase and then, we have applications for mobile and web.

- Functional React development
- Integrating Firebase with React
- Integrating Cloud Firestore with React
- Hooking APIs with Axios

Developing Back-End with Laravel 2021

I started learning Laravel after 2 years of coding with pure Php. After that, I started to read the official documentation to know Laravel better and get deep in it.

- Laravel Model, Controller, Migration
- Eloquent ORM
- Laravel Authentication
- Laravel deploying in Heroku PasS
- Blade templates

Developing mobile apps with Flutter 2020

Before learning Flutter, I was a native Android developer with Kotlin. I know what Flutter is but I haven't ever tested it. I learned Flutter and integrated it with Firebase.

- Local database provider | SQLite
- Firebase authentication
- Firebase Cloud Firestore as NoSQL database
- Material components
- Cupertino components

Writing and speaking languages

- English
- Persian
