Sponsorship required to work in the US

Work Experience

Software Developer

Narbon Technologies - Tehran

November 2021 to Present

- Revised, modularized and updated old code bases to modern development standards, reducing operating costs and improving functionality.
- Developed software for both desktop and mobile operating systems.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.

Backend Developer

Narbon - Tehran

April 2019 to November 2021

- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX and JSON coding.
- Provided front-end website development using WordPress and other editing software.
- Coded websites using HTML, CSS, JavaScript and jQuery languages.
- Conducted testing and review of website design for responsiveness, clarity and effectiveness.
- Built and styled new mobile-friendly websites, transitioning legacy presentations to simultaneous easy-to-use versions.
- Oversaw back-end development using PHP to maintain website integrity, security and efficiency.
- Pulled from PHP, SQL, JavaScript and other back-end library knowledge to bolster programming resources.
